

Social Security Bulletin

Index to Volume 11, 1948

Key to the Index

All material is indexed by subject; special articles are indexed also by author, if signed, or by title, if unsigned.

For monthly data which appear regularly in the various sections of the Social Security Bulletin, no page references are given; instead such data are indicated by an M, followed by the sectional designation; e. g., M: SED. If the material has not appeared throughout the year, the specific months are included in the designation; e. g., M: SED (My-D).

With the July issue, the separate program sections and the Social and Economic Data section were discontinued, and a new section, Current Operating Statistics, was added in which the tables are grouped by program. Sectional designations ES, OASI, PA, and SED for the July-December issues therefore refer to the Current Operating Statistics section and specifically to the group of tables dealing with the program to which the index entry refers.
